

A Cappella

Acappella

There's a light that's from the window and it shines down on the street

There's some guys standing on the corner making that good old harmony

And now there's a light that's from the window and it's sent to the street corner symphony

Let 'em sing let 'em shout cause they're singing that good old harmony

Chorus:

Singing it soul to soul, Brother to brother

A cappella--Well it sounds good to me

Singing it soul to soul, Brother to brother

A cappella--Well it sounds good to me

And now I turn out the light say goodnight to another day

I'm gonna rest my weary head in my long awaited bed

I'm gonna get on my knees and pray, ask the Lord to give me just one more day

Oh Lord, hear my plea--This music just sounds so good to me

Repeat Chorus

You know we're singing for the Lord and now we're feeling mighty good

Makin music with our voices like we know all Christians should

We don't need any type of guitar or an instrument to use

Oh it sounds good to me and I'm hoping it sounds good to you

Repeat Chorus

Soul sing a cappella, Soul sing a cappella, Soul sing a cappella ooh

Church sing a cappella, Church sing a cappella, Church sing a cappella
