

# The Time Has Come

**Acappella**

The time has come to tell the masses that Jesus Christ our Saviour lives-  
Of how he loves us like that the father and of the spirit that he gives.  
The time has come to take the message to those who'll never be the same-  
Too many bound by false religion, to those who've never heard his name. Chorus:  
The time has come to tell the nations; the time has come to spread the word.  
In every town we must confess it; we must reveal our precious Lord.  
The time has come; we must not waste it. The time has come to sound the news.  
It is for every single nation. We cannot wait- the time has come.

From Macedonia, the call is sounding. Earnest and bold the people wait.  
The countless children in Peking, China; The thirsting souls of Uruguay;  
The time has come to go to Boston, Salt Lake, Nashville, to Abilene.  
Yes from L.A. to New York City and every county in between.

[Repeat Chorus]

The time has come, the Time Has Come, the TIME HAS COME!
