

# Carry the Weight

Accept

Take the heat, stand the pressure, bearing a load beyond measure  
Hold fast, and fight with fire, always walking the wire  
Wake up, that's not the answer, it eats at your life like a cancer  
You want it all, can't fight the feeling  
You'll never win 'cause the devil's dealing

Don't let it control you, It's dragging you down  
Can't let them control you...

Don't carry the weight of the world on your shoulders  
Carry the weight of the world all alone  
Don't carry the weight of the world on your shoulders  
Don't carry that weight, it will turn your heart to stone

On the news, another bombing, the feds can't stop global warming  
Give now! Or children will die, more planes fall from the sky  
Look out, floods and earthquakes, big corporations get tax breaks  
The euro's down, and now there's brexit  
The world is broke, and you can't fix it

Don't let it control you, It's dragging you down  
Can't let them control you...

Don't carry the weight of the world on your shoulders  
Carry the weight of the world all alone  
Don't carry the weight of the world on your shoulders  
Don't carry that weight, it will turn your heart to stone

There will be trials in your life, things you cannot control  
There will be heartache and strife, don't let it tear out your soul

Don't carry the weight of the world on your shoulders  
Carry the weight of the world all alone  
Don't carry the weight of the world on your shoulders  
Don't carry that weight, it will turn your heart to stone
