Do It

Accept

I got the same bad dream every night
My love is gone out of sight
My brain is manic, my mind insane
I gotta tell ya, it's that long ride
Point when you turn, time without you

Baby, come back, come back to me
I'll beg you, girl, down on my knees
Show me the way, show me the way
I need you so, come back
Come back, come back to me

Do it, do it, do it tonight
You are the girl of my life
Do it, do it, do it tonight
You are the girl of my life

Baby, I know what I've gots to do
What can I do, I need you so
I wanna give you all my love
I need to have you all night
All night, all night long

Do it, do it, do it tonight
You are the girl of my life
Do it, do it, do it tonight
You are the girl of my life

Baby, come back, baby, come back
I'll beg you, girl, down on my knees
Show me the way, show me the way
I need you so, come back
Come back, come back to me

Do it, do it, do it tonight
You are the girl of my life
Do it, do it, do it tonight
You are the girl of my life

Do it, do it, do it tonight
You are the girl of my life
Do it, do it, do it tonight
You are the girl of my life

Do it, do it, do it tonight
You are the girl of my life
Do it, do it, do it tonight
