

I Wanna Be No Hero

Accept

When I'm down and when I'm feeling sad
You bring me up, you make me glad
Even if I'm really out of control
You stand by me when I stumble and fall

I'm confused tonight - I'm feeling blue
You'll find a way to help me through
Want you tonight 'cause I feel time is right
Need your sweeps bacause deep down inside

I can't give you nothing but love, babe
Tried to change, but it's pretty hard

I wanna be no hero, but I know I would die for you
I wanna be no hero, but I'm ready to fight for you
I wanna be no hero, oh, but I can give you love
Life is a mess - oh yeah

I know that living's not easy with me
But take my love - it's fair indeed
You drived away all my sorrows and pains
My love is strong, more than a game

I can't give you nothing but love, babe
Try to change - but it's pretty hard

I wanna be no hero
But I know I would die for you
I wanna be no hero,
But I'm ready to fight for you
I wanna be no hero,
Ooh, but I can give you love

I wanna be no hero - need you tonight
I wanna be no hero - stay by my side
I wanna be no hero - need you tonight
I wanna be no hero - oh but I can give you love

I can't give you nothing but love, babe
Try to change - but it's pretty hard

I wanna be no hero
But I know I would die for you
I wanna be no hero,
But I'm ready to fight for you
I wanna be no hero,
Ooh, but I can give you love
