Living for Tonight

Always on the run Where you are going, what you are doing Looking just for fun Love the twilight, love the dark

Rats - are all around And I am waiting for a head Take what you want And if you need it take it now Guess it will be just alright

I'm living for tonite - tonite Living for tonite - tonite

Working out my way Find some ramp-rats, find some victims Bad games all night long We need to hid it just for fun

Games - we shouldn't play And if you need some help - just wait I'm going out into the dark Guess it will be just alright

I'm living for tonite - tonite Living for tonite - tonite

Gimme your body Take what you want Can't wait anymore
