

# Midnight Highway

Accept

Out I started, late tonight  
Blinded by the light  
Strangest feelin' I have known  
Don't know what's wrong or right

See the people, clubs and bars  
Streetlife passin' by, yeah  
Screamin' engine, burnin' gas  
I'm on overdrive

Danger, danger, save your soul  
The finger's writin' on the wall  
Where you are the angels are blind

Midnight and I cruise along the highway  
Midnight and I'm all right on the highway

Midnight sky is bright and clear  
New moon on the right  
All at once, risin' haze  
The freeway is my life

I'm on a high, spacin' out  
Where I'm goin' I don't care  
Can't you see, this is me  
I'm an indestructible boy

Danger, danger, save your soul  
The finger's writin' on the wall  
Where you are the angels are blind

Midnight and I cruise along the highway  
Midnight and I'm all right on the highway  
I'm all right

Midnight and I cruise along the highway  
Midnight and I'm all right on the highway  
Midnight and I cruise along the highway  
Midnight, on a never ending highway
