Accept

They are protectors of terror  
They are protectors of terror

They're in the business of illusion

An empire built on pain  
The Almighty's inquisition  
They're a fire burning out of controll

A thousand years of praying  
Of faith, morality  
A thousand years of staying  
Of terror in the name of cross

Will you pray - will you cry  
Thou shalt not bear false witness  
When brothers in faith  
Turn to brothers in arms  
Thou shalt not make unto thee  
any graven images  
How many more have to die

They are protectors of terror  
They are protectors of terror

You pay for your salvation  
You have to bend your knees in pain  
No surrender to temptation  
You're a slave to the eye of the Lord

Will you pray - will you cry  
Thou shalt not take the name of the Lord thy  
God in vain  
When brothers in faith  
Turn to brothers in arms  
Thou shalt not covet thy neighbour's oxen  
How many more have to die

They are protectors of terror  
They are protectors of terror  
They are protectors of terror  
they are protectors  
They are protectors of terror

Fear not those who dare to treed  
upon the ashes of the chosen ones  
They will drink the spillage of the blood  
Behind closed doors the darkest  
one prepares his altar of death

They are protectors  
will you pray - will you cry  
Of terror  
when brothers in faith turn  
to brothers in arms  
They are protectors  
hom many more have to die

Laws carved in stone are rewritten in blood

They are protectors of terror

They are protectors of terror

They are protectors of terror

they are protectors

They are protectors of terror
