

# Rollin' Thunder

Accept

Burain' rubber ,and wheels of fire  
A nomad's life on the open road  
Storm is a comin'... A deadly choir  
Pressure's mounting gonna overload

Can't you hear the rumble rising  
Cant you fell it in the air... fell it everywhere

Like rollin' thunder... shakin' the world tonight  
Like the rollin' thunder... ready to ignite  
You can hear it, you can fell it  
It's everywhere... It's in the air

Out of the distance... you feel the nightmare  
Hear the bitch comin'... on the breeze  
When in a Hash you realize they're right there  
Panic running wild in the streets

Ground is trembling... night's exploding  
Wild life fills the open air it fills the open air

Like rollin' thunder... shakin' the world tonight  
Like the rollin' thunder... ready to ignite  
Can you hear it, can you feel it  
It's everywhere... It's in the air

(solo)

Can you feel the rollin' thunder... shakin' the world tonight  
Like the rollin' thunder... ready to ignite
