

# Stand Tight

Accept

My bones are trembling  
Veins are filled with ice  
I see you swagger through  
Your boots are shiny, too

I still feel your torture  
Messing up my life  
I cannot forget  
How you showed me your despise

Deep down in the gravel  
I lie and wait for relieve  
And I hear the orders you scream  
Sounds like a choir to me

Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together

I know I am unconscious  
Just what you like to see  
You say you've got to drill me  
And you let me kiss your gun

I have to clean your boots  
In every way you like  
You deny my human rights  
You don't make it easy

And I am so down  
So devoted and humbled to you  
What more can a slave remain  
Before he floods away

Stand tight - all right  
And assume the position - we all stand together  
Stand tight - all right  
And assume the position - we all stand together

Stand tight - all right  
- we all stand together  
- all right  
- we all stand together  
- all right  
- we all stand together  
- all right  
- we all stand together
