

## Starlight

Accept

Know the bright lights of Hollywood  
Movie towns, a phony world  
Seen a few nights of wonder  
Seen a few nights of hell

Walking down the foggy streets of London town  
Now I know it well  
Every light in the world is nothing  
To the light we know so well

Starlight, shining bright  
Starlight, right

Had a bit of life in high society  
The slums have seen me, too  
And the rich and poor would wonder  
At somethin' old and new

See it every night goin' slowly 'round  
Can't you see it's true  
Out there every man is equal  
Way out there in the blue

Starlight, shining bright  
Starlight

Take it all the way all night long  
Twinkle on, you stars  
I feel my brain is blinded  
I wonder what you are

Starlight, shining bright  
Starlight

Starlight
