

## Gimme a Feelin'

Ace Frehley

When I see you it's such a reaction  
And Baby, you got what it takes to jangle my brain  
Now you're looking so good  
And you're such an attraction  
And I just wanna celebrate...celebrate...

You gimme a feelin' because you're on my mind  
And I start believing until the end of time  
Well, all I know I can sleep because I'm thinking 'bout you  
And all I know and every day you drive me so crazy

When I'm close to you, girl  
You're so contagious  
Now I'm looking at you  
I know that you're the one  
And Baby, everything about you is so outrageous  
And I just wanna celebrate...celebrate...

You gimme a feelin' because you're on my mind  
And I start believing until the end of time  
Well, all I know I can sleep because I'm thinking 'bout you  
And all I know and every day you drive me so crazy

Lead break...

When I'm playing with you there's a chemical reaction  
And everything about you has gone to my soul...Oh, Yeah!  
And Baby, I just wanna celebrate...celebrate...celebrate...celebrate...celebrate...

You gimme a...gimme a...you gimme a...  
You gimme a feelin' because you're on my mind, Oh, yeah!  
And I start believing until the end of time  
Well, all I know I can't sleep because I'm thinking 'bout you  
And all I know and every day you drive me so crazy, crazy  
You drive me fucking nuts!
