

Past the Milky Way

Ace Frehley

This one's for Rachael

Now I'm past the point of no return
And my computer is tellin' me I'm lost
And I hope and pray that I'll see you
'Cause I'm no quitter, not at any cost

Now I'm runnln' out of oxygen
But I still got my guitar
Celestial bodies they surround me
I don't think I'll make Venus
'Cause I've traveled very far
Could we rendezvous on Mars?

I'd sail Past the Milky Way
Just to hold you in my arms

Since I met you everybody tells me
When we're together I'm a better man
And you helped me feel so strong again
When I'm with you I always do the best I can

Now I'm runnln' out of oxygen
But I still got my guitar
Celestial bodies they surround me
I don't think I'll make Venus
'Cause I've traveled very far
Could we rendezvous on Mars?

I'd sail Past the Milky Way
Just to hold you in my arms

Now over and over again
All that matters is to see you smile, oh yeah!
I hope it's sooner than later
'Cause I'll be kissin' you in style, alright!

Now I'm runnln' out of oxygen
But I still got my guitar
Celestial bodies they surround me
I don't think I'll make Venus
'Cause I've traveled very far
Could we rendezvous on Mars?

I'd sail Past the Milky Way
Just to hold you in my arms
