

# Everytime It Rains

Ace Of Base

I see dark clouds out my window  
I know the storm is coming any minute  
And the thunder just confirms my fears  
And I know the tears are in there  
I'll be crying unable to stop  
Look here comes the very first drop

'Cause every time it rains  
I fall to pieces  
So many memories the rain releases  
I feel you... I taste you  
I cannot forget  
Every time it rains... I get wet

Darling I am still in love with you  
As time passes by it just intensifies  
I know I'll never be with you again  
I'll never find another with that kindness in his eyes  
I'll be trying unable to stop  
Look here comes the very first drop

'Cause every time it rains  
I fall to pieces  
So many memories the rain releases  
I feel you... I taste you  
I cannot forget  
Every time it rains... I get wet

On sunny days I'm all right  
I walk in the light  
And i try not to think about  
The love I live without

But every time it rains  
I fall to pieces  
So many memories the rain releases  
I feel you... I taste you  
I cannot forget  
Every time it rains... I get wet  
'Cause every time it rains  
I fall to pieces  
So many memories the rain releases  
I feel you... I taste you  
I cannot forget  
Every time it rains... I get wet  
'Cause every time it rains  
I fall to pieces  
So many memories the rain releases  
I feel you... I taste you  
I cannot forget  
Every time it rains... I get wet
