

# Whenever You're Near Me

Ace Of Base

Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good or when they're bad  
You know how to please me  
Like nobody can  
Someone to believe in  
Be my lover be my friend

When every race is run and the day is closing in  
I feel the need to hold you, let the night begin  
Come softly to me, show me why...

Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good or when they're bad  
You know how to please me  
Like nobody can  
Someone to believe in  
Be my lover be my friend

I cannot wait to feel the beating of your heart  
The days are long and they're just keeping us apart  
Come softly to me, show me why...

Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good or when they're bad  
You know how to please me  
Like nobody can  
Someone to believe in  
Be my lover be my friend

Whenever you're near me

Love is the reason  
We can feel this way inside, oh oh  
Turning the World around and making us wild  
Love is the music beating in our hearts tonight, oh oh oh  
Lighting the way to take us deeper inside

When ever you're  
Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good or when they're bad  
You know how to please me  
Like nobody can  
Someone to believe in  
Be my lover be my friend  
Whenever you're near me  
Someone to believe in  
Whenever you're near me  
You know how to please me  
Someone to believe in

Be my lover be my friend
