

## Ball & Chain

Ace Troubleshooter

I know I told you  
But I dole out excuses  
I'll get home just as soon as I can  
It'll be alright  
But I mean it, gotta believe it  
You're still my daylight and my evening, girl  
And I'll see you tonight  
A Sunday drive, girl let's get out tonight

Yeah the tunes on the stereo  
Make me wish I was home  
I'm feeling like a leg missing its ball & chain  
Yeah the tunes on the stereo  
Make me wish I was home  
And it seems cliché to love you  
For hating me being away from you

If I said it would you regret it  
Knowing I'll want you more  
Every day we're apart?  
But we'll be just fine  
So I'm jealous of the fellas  
Who get close enough  
To share the air you breathe  
But tonight you're all me  
A Sunday drive, girl let's get out tonight

Yeah the tunes on the stereo  
Make me wish I was home  
I'm feeling like a leg missing its ball & chain  
Yeah the tunes on the stereo  
Make me wish I was home  
And it seems cliché to love you  
For hating me being away from you

Girl you don't have to cry  
Just bite your lip and sigh  
And don't turn out your light

Yeah the tunes on the stereo  
Make me wish I was home  
I'm feeling like a leg missing its ball & chain  
Yeah the tunes on the stereo  
Make me wish I was home  
And it seems cliché to love you  
For hating me being away from you  
But I do
