## **Jessicah Song**

## Ace Troubleshooter

Today was blase, I had my delusions of grandeur With my head on my desk in Math When I wiped the drool form my mouth And I lifted my head, DAZED Recollections of all the dreams of you I've had

Dazzling, oh so lovely

Sitting in History, outside the bounds of Interesting My mind is forced to wander to thoughts of you I wanna drive you home I wanna seek and find the secrets that you know I wanna make up for all the time I blew

You're so lovely!
