### Ace Troubleshooter

You know who she is  
You know what she does  
Only I know what that girl's doing to you  
You know who she is  
You know what she does  
Only I know what that girl's doing to you

There' one for every band  
Almost one for every man  
If you're not careful  
She'll eat you up  
So please be careful

Yoko Yoko  
Nagging all the time  
Wasting all hes time  
Yoko Yoko  
Be carefull with that boy  
Better be carefull with that boy

She'll win you with composure  
And perfect nonchalance  
She'll lure you in and snag you  
Make you think that you'r the Fonz  
She'll get you in her clutches  
Make you her confidant  
She'll nag you to death and she'll drag you  
Man you've gotta get rid of that debutante

She'll nag you to death and by inches  
Will suck all the life that you somehow have left  
Yeah it will only be nag nag nag nag
