If You

Ace

Best thing in a party, baby
Poundin' a half a Bacardi, baby
Ain't no thing that's the truth, baby
Got me thinkin', ooh girl, simply maybe
Your body type fit that profile
The way you move when you're gettin' down
Gettin' dirty on the dance floor
A perfect 10 down to the toe

I've been lookin' at you all night
We can kick it if your game's tight
Me and my girls if it's alright
Just me and you by the end of the night

If you wanna come home with me
You gotta work that thing up on it
If you wanna sit in VIP
You gotta work that thing up on it
We can ride out all over town
Hit every spot around
Wanna know if you're friends are down, too
Work that thing up on it

Four on four, do that math, ooh
Cramped in the back of the club, ooh
Now you're trying to show me what you got, ooh
Make you feel good like Halle, ooh
Tiger paws on that fit blouse
On my lap workin' overtime
Girl, I'm hoping for a private show
Champagne, a little Mo, we can roll

I've been lookin' at you all night
We can kick it if your game's tight
Me and my girls if it's alright
Just me and you by the end of the night

If you wanna come home with me
You gotta work that thing up on it
If you wanna sit in VIP
You gotta work that thing up on it
We can ride out all over town
Hit every spot around
Wanna know if you're friends are down, too
Work that thing up on it

You got me watchin' you
No, I ain't tryin' too
I'm tryin' to play it cool
Baby, you make me drool
Now, I could play the fool
I could play myself
You got me jockin' you
Sweatin' and clockin' you
Now why you trippin', boo
Hear what I'm tellin' you
What do you wanna do

My paradise like Xanadu
Give up the revenue
Glossy and Heaven you
What I see is what I want
Baby, and that's me and you

I've been lookin' at you all night
We can kick it if your game's tight
Me and my girls if it's alright
Just me and you by the end of the night

If you wanna come home with me
You gotta work that thing up on it
If you wanna sit in VIP
You gotta work that thing up on it
We can ride out all over town
Hit every spot around
Wanna know if you're friends are down, too
Work that thing up on it
