

# Dr. Seuss Is Dead

Acid Bath

A cloud of flies obscure the sun  
A stone is dropped  
A dream undone  
Ripples grow and ride the tide  
The dead things crawls from deep inside

With it's dying  
Sour breath  
The burning smell of insect flesh  
Hungry things in circles crowd  
Around t.v.'s turned up too loud

We are the dead next door  
Turned up to loud  
Where the dirty needles shine and litter the floor  
It's too fucking loud  
Taste the light, inject the lord  
It's too fucking loud  
I cut my self again because I'm so fucking bored  
It's too fucking loud  
We are the dead next door  
It's too fucking loud  
Where the dirty needles shine and litter the floor  
It's too fucking loud  
Taste the light, inject the lord  
It's too fucking loud  
I cut my self again because I'm so fucking bored  
Motherfuck yeah!

We await, life  
Dr. Seuss is dead

The dream is swirling  
I'm alone  
Where the streets are paved with bone  
Buildings with a hundred eyes  
Watch me through the swarming flies

Behind shade pulled down tight  
Things are growing without light

Hungry things in circles crowd  
Around t.v.'s turned up too loud

We are the dead next door  
Turned up to loud  
Where the dirty needles shine and litter the floor  
It's too fucking loud  
Taste the light, inject the lord  
It's too fucking loud  
I cut my self again because I'm so fucking bored  
It's too fucking loud  
We are the dead next door  
It's too fucking loud  
Where the dirty needles shine and litter the floor  
It's too fucking loud  
Taste the light, inject the lord

It's too fucking loud  
I cut my self again because I'm so fucking bored  
Motherfuck yeah!

The dream sea has been poisoned  
Stoplight flashes me red  
Innocence suffocated in it's sleep  
Dr. Seuss is dead  
The dream sea has been poisoned  
Stoplight flashes me red  
Innocence suffocated in it's sleep  
Dr. Seuss is dead  
Dead  
Dead  
Dead  
He's fucking dead
