### Acid Drinkers

Gentleman. Ladies! Get gassed!  
It's been always going on  
Yourself why don't you, please blast?  
Could you, please, kick the bucket  
And keep out of my business  
Sacriface yourself for the masses  
This brave deed to fame will rocket

Could you drink poison, please?  
And then picturesquely die?  
Will you blaze on live tv  
Hey people hang this man  
His face seems antisocial  
His nation let's enslave then  
Great money is waitig there

Hey, babe, I've got a soul for sale  
Start to trade. Don't stop now

You'd better dance to my tune then  
And say what I want to hear  
I can see no other option...
