

Riot In Eden

Acid Drinkers

A riot in Eden
Dark spirits are feeden'
On evil that's breedin'
Did ya think it would come to this?
The meadows of Heaven
Idyllic like Devon
But peace is now deadened
And wine's being turned into piss.

Heavenly police press
Use force to clean this mess
Rebellion to suppress
Good clubbing redeeming the saints

There's devilish flyers
And funeral pyres
I see burnin' tires
Right under the Paradise Tree
Devour the serpent
How long can you just lent?
Is what Adam and Eve meant
The righteous just long to be free.

Heavenly police press
Use force to clean this mess
Rebellion to suppress
Good clubbing redeeming the saints.

This gale so unholy
Destroys Eden wholly
And slowly but surely
The terror turns Heaven to Hell.
(The terror turns Heaven to Hell).

Heavenly police press
Use force to clean this mess
Rebellion to suppress
Good clubbing redeeming the saints.

Heavenly police press
Use force to clean this mess
Rebellion to suppress
Good clubbing redeeming the saints.
