

# We Died Before We Start To Live

Acid Drinkers

This morning the sun will  
Wake earlier, you've got to come  
Back, back in the darkness  
Before the day will wake  
They should not see you in light  
I'll try to close their eyes  
Don't let them catch you

The wolfs are too scared tonite  
The moon and the stars will wail  
Vamipers take the shower  
First since one thousand years  
Where is an order and law  
The bard is quiet and pale  
Junkie and livertine  
Starting to create new being

You are not able to stop rough cut, now...  
You are not able to stop rough cut, now...  
You are not able to stop rough cut, now...  
You are not able to stop - got to give it up...

Angry night!!! Morning was so stiff...  
We died before we start to live  
We died before we start to live  
Angry night!!! My uncommon junkie  
We died before we start to live  
We died before we start to live

My good god, you can see it...  
You're so easy, when you smoke your cigar...  
Where is the law and tradition???  
Where are the black leather shoes???  
Where is your funeral suit???  
My alb is yellow and red  
Junkie and libertine  
They are again starting to killing new being!!!

Angry night!!! Morning was so stiff...  
We died before we start to live  
We died before we start to live  
Angry night!!! My uncommon junkie  
We died before we start to live  
We died before we start to live

You are not able to stop rough cut, now...  
You are not able to stop...
