

This Heart Is A Stone

Acid House Kings

They say your middle name is trouble
But I know it's Caroline

They say you remind them of problems
But I think you look like Audrey

Caroline, I know that you put on a show
Every time you two disagree

This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
'Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay

They say they can smell the drama
But I know it's No. 5

They say you only bring heartache
But I know you bought a bottle of wine

Caroline, I know that you put on a show
Every time you two disagree

This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
'Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay

They say you're like a Monday morning
I say you're like a Friday night
I don't get their point
Anytime is a good time for being with you

This heart is a stone
No one will ever break it
This heart is a stone
Close to you it breaks easily
'Cause everything that they say
It tells me to go away
But everything that I feel
It tells me to stay
