

# Tonight Is Forever

Acid House Kings

We travel in class  
Going far  
Follow the stars  
And we'll be there for sure

So, travel fast  
With no musts  
If this is all  
I know that I can go

We are the city life  
Tonight is forever  
Until the lights go out  
I'm glad you're here with me tonight

You can go  
Out of town for a week  
I know you will be back

I can go  
Day or night  
And arrive before the lights go out

We are the city life  
Tonight is forever  
Until the lights go out  
I'm glad you're here with me tonight

We are the city life  
Tonight is forever  
Until the lights go out  
I'm glad you're here with me tonight

We are the city life  
Tonight is forever  
Until the lights go out  
I'm glad you're here with me tonight
