

Your Favourite Flower

Acid House Kings

What is your favourite flower
Tell me and I'll crush it
But please take your time
Yes please take your time
'Cause that's all that you have got
All that you have got

What is your favourite flower
Tell me and I'll give it to you
As if for the first time
Love me as you loved me then
Love me as you loved me then
Love me as you love yourself
