

## Nuclear Warfare

## Acoustic Torment

A vision in the sky  
Casting a shade on mother earth  
They know what it will bring  
But no belief - denying the truth  
Fleeing creatures everywhere  
Each possessed by tremendous fear  
Crying like tormented souls  
Wishing that they were never born  
A thud impact  
A raising mushroom cloud  
High pressure is filling the air  
A flash of fire is dragging life away

Nuclear warfare  
Nuclear warfare

Sitting here in the cold  
Watching the drizzling snow  
Benumbed perceiving the fallout  
Looking at the wasteland  
You cannot see it  
You cannot feel it  
You cannot touch it  
But it could let you die  
You watch yourself and scare  
The hair is gone  
The skin is black  
The radiation is a torment  
A torture
