

## Innocent Blood

Acrophet

Cries of joy, a helpless cause  
Memories lost, insanity  
Guilty mind, innocent blood  
Spread for one, so helplessly  
Death for one, no escape  
Freedom be just steps away  
Bargains bought, roaming free  
Victims pray

Try to save  
Forget the memories of today  
Reach for the final breath  
Born to be  
Silent curse, mindless pain  
Plagued by the surgeon's keys

Thoughts of pain, running wild  
Bearing down upon one's mind  
Unrightful justice in control  
Changing time to time  
Offering lessons to learn  
Destruction carefree concern  
Sinister lay awaiting  
Observer closes the keys
