

## Exciting Times

## Across The Sky

I've got something to talk about  
I've had a lot on my mind  
But I think I finally figured out  
What I'm feeling on the inside  
'Cause where I wanna be  
Is in the thick of things  
It's all I'm thinking about

These are exciting times  
I can see that You are leading me  
And it feels so right  
I'm assured of this, my offering  
I'm finally living  
'Cause these are exciting times

Things can happen so rapidly  
Then again, they can take a lot of time  
But I know these things are not up to me  
But I'll be ready in the mean time  
Opportunity is calling out to me  
I lay it all on the line

These are exciting times  
I can see that You are leading me  
And it feels so right  
I'm assured of this, my offering  
I'm finally living  
'Cause these are exciting times

This thing is bigger than me  
And I'm just wanting to be a part of  
Anything and everything You ask of me

These are exciting times...  
I can see that You are leading me

These are exciting times  
I can see that You are leading me  
And it feels so right  
I'm assured of this, my offering  
I'm finally living  
'Cause these are exciting times
