```
I want to live in the moment
Like there's nothing that I lack
I want to give like there's nothing to lose
And no reason to look back
Not so You will love me
Not so You will love me
Not so You will love me
But because You do
There's no way to impress You
There's no grace I can earn
Help me to see that my life is a gift
I can give in return
Not so You will love me
Not so You will love me
Not so You will love me
But because You do
Because You do
I don't have to prove a thing
Because You do
I am free
Where there's suffering I'll bring comfort
Where there's wandering I will guide
Where there's judgment I'll show mercy
Where there is darkness I'll be light
Not so You will love me
Not so You will love me
```

Not so You will love me

But because You do
