

A Light in the Addict

Action Bronson

Sittin' first class, feelin' like shit though
Starin' out the window with the mind of a schizo
Thinkin' if I jump, will I feel it when I hit the ground?
Fuck that, I want the crown off anybody head
I wouldn't care if everybody's dead
It's why I keep the pump shotty layin' in the bed
Have a fuckin' sleepover with my weapons
My Rambo knife is eatin' nuggets with my Smith & Wesson
Shit, I made this out of nothin'
Damn, these ladies love me out in London
Laurenivici served the granulated onion
My mind is locked in a contaminated dungeon
Dog, what the fuck is with your mother?
She got one leg longer than the other
One eye through the shutter
Made the transition from weed to butter, like spring to summer

I nearly lost my mind
All a motherfucker got is time, time, time
Time, time
I nearly lost my brain
Dealin' with this motherfuckin' pain, so bad
So bad, I'm so glad
