

## A Light in the Addict

Action Bronson

Sittin' first class, feelin' like shit though  
Starin' out the window with the mind of a schizo  
Thinkin' if I jump, will I feel it when I hit the ground?  
Fuck that, I want the crown off anybody head  
I wouldn't care if everybody's dead  
It's why I keep the pump shotty layin' in the bed  
Have a fuckin' sleepover with my weapons  
My Rambo knife is eatin' nuggets with my Smith & Wesson  
Shit, I made this out of nothin'  
Damn, these ladies love me out in London  
Laurenivici served the granulated onion  
My mind is locked in a contaminated dungeon  
Dog, what the fuck is with your mother?  
She got one leg longer than the other  
One eye through the shutter  
Made the transition from weed to butter, like spring to summer

I nearly lost my mind  
All a motherfucker got is time, time, time  
Time, time  
I nearly lost my brain  
Dealin' with this motherfuckin' pain, so bad  
So bad, I'm so glad
