

## Wolf Power

## Ad Hominem

Gathered around our prey  
We're observing our victory  
This weak human and all his beliefs  
Is nothing but putrid shreds of flesh

We are the wolves  
The wrath of our ancestors  
Spilling the blood  
Of the bastards sons of god  
We are the wolves  
The future life on earth  
Hunting like predators  
All kind of impurity

The jewish corporation  
Will be savagely devoured  
Eternally

Wandering in the woods  
Runing towards the unknown  
We are our own masters  
Only worshipping ourselves
