

# Introitus/Solvet Saeculum in Favilla

Adagio

[Verse I]

Ashes surrounding me  
Nothing else, but darkness, blood and pain  
My determination will prevent you to outlast

[Verse II]

After so many years of disgrace  
I feel my hatred becoming mightier  
Corrupt your soul, I will  
Never ending my pervert plague to flow

[Bridge]

Spread your wings and follow me higher  
Leave the dark beyond, repent you Sinner

[Chorus]

Leave our souls in peace  
And pray for us to die bravely, O lord I've sinned  
Salvation, wisdom and Forgiveness,  
I dedicate my death to implore your pardon,  
I can't find my way, tracked down by my fate.

[Verse I]

Reign over the world I will  
The mandrakes of death I will seed  
I'll kill and probably I bleed,  
Spreading impureness on your fields

[Bridge]

Spread your wings and follow me higher  
Leave the dark beyond, repent you Sinner

[Chorus]

Leave our souls in peace  
And pray for us to die bravely, O lord I've sinned  
Salvation, wisdom and Forgiveness,  
I dedicate my death to implore your pardon,  
I can't find my way, tracked down by my fate.
