

Next Profundis

Adagio

Crossing the borders of an enchanted dream
Silver dust falling on my hands
Empty spaces of a new horizon
Frontiers to another land

See the stars come closer,
Enlightening your desire
Follow the wisdom of the light

I'm not afraid, take my hand
Show me what's behind the end
Oceans of pureness might stand

[Refrain]
Is there any reason to fall,
Cross oblivion, meets the afterworld
Mesmerizing sights of unknown angels,
Takes me away to the next profundis

As abstarct as it can be
I see myself lying in the underworld,
Nothing seems real over me,
But still I know my shadow's watching me

Kingdom of sleep, deepness of earth
I will let time decide for me
The promised land I will find,
When Cronos will steal my mind

[Refrain]
Is there any reason to fall,
Cross oblivion, meets the afterworld
Mesmerizing sights of unknown angels,
Takes me away to the next profundis
