Scorpios

Adam and the Ants

There's a gang in every town
I say that the rules be turned around
Listen here from one who knows
Be fearless just like the Scorpios

Pretty, look young be fearless Like the Scorpion Pretty, look young be fearless Like the Scorpion The Scorpion The Scorpion

Black's the colour watch the claws With nails as sharp as Diana Dors Watching us is stopping you From cruising Ugly Avenue

Pretty, look young be fearless Like the Scorpion Pretty, look young be fearless Like the Scorpion The Scorpion

And if by chance you cling to hate Just rest assured it's your mistake

Hold up your head, you know I'm right The street's the place, tonight's the night The night

The night look pretty, look young be fearless like the Scorpion The night look pretty have fun, don't listen when you're told t here's none...
