

Beautiful Dream

Adam Ant

She was kissing my back and my neck and my face
I was looking around for perfect place
To lay down beside her and say maybe
This is the time to make babies

Prettiest girl that I've ever seen
I look at you and I think it's a dream
I love your voice and your sexy body
Let's so deep inside into the love stream

Face like picture in a gallery
Her legs were long and slim as she walked up to me
Wide at the front and wide at the back
Her hips were curved only her stomach
Was flat
An IQ of 690, everything one woman can be

Push push cos I like it like that
So I push push and then she pushed back said
Don't stop it's never felt better
I think I'd like to carry on forever

Beautiful Dream more than a dream
In effect in a love stream love power
It was a beautiful dream more than a dream
In effect in a love stream love power

Love and hate will never be friends
This is a dream I don't want to end
I'll be your friend I'll be more than your friend
This is a love I must defend
