## **Navel to Neck**

## **Adam Ant**

Give me your hand here is mine Better in the open It's showtime let's call the tune

He's her baby boy Navel to neck Give me your mouth I want to kiss you

Something deep inside me waits You're giving up your daughters But perfection is so dull

He's her baby boy Navel to neck Give me your mouth I want to kiss you

That's the way the honey goes Sweeter than a toy From his tippy to his toes He's her baby boy

That's the way the honey goes Sweeter than a toy (hey, girl) From his tippy to his toes He's her baby boy (what did I say)

That's the way the honey goes Sweeter than a toy Come out to play, huh

Every inch of you I prize Your body is a vision And all the while look in your eyes
