

Room at the Top

Adam Ant

Wellllll

Once is never enough
Never is never was uh-huh
Here and now is all that counts
Here and now in large amounts uh-huh
Be beautiful but shut up
The going can be real tough uh-huh

You can keep your fancy bars
Clubby friends and fast cars uh-huh
And when the going gets hard
You can eat your credit cards uh-huh
I really tried to fight it
But what the hell I like it uh-huh

Well..Ohhh...Yeah
There is always room at the top
Don't let them tell you there is not
Made in England born and bred
An eighteenth century brain
In a twenty first century head

If some of this fits some of you
Or like the things that you might do uh-huh
Well, it's the pleasure and the pain
That makes us do it all again uh-huh
They say
Be beautiful and shut up
The going can be real tough

Well..Ohhh...Yeah
There is always room at the top
Don't let them tell you there is not
Made in England born and bred
An eighteenth century brain
In a twenty first century head

Room at the top -- so eighteenth century
Room at the top -- so eighteenth century
Room at the top
There's always room

Room at the top -- so eighteenth century
Room at the top -- so eighteenth century
Room at the top
There's always room

Hey hey hey

Well..Ohhh...Yeah
There is always room at the top
Don't let them tell you there is not
Made in England born and bred
An eighteenth century brain

There is always room at the top
Don't let them tell you there is not

Made in England born and bred
An eighteenth century brain

There is always room at the top
Don't let them tell you there is not
Made in England born and bred
An eighteenth century brain

There is always room at the top
Don't let them tell you there is not
Made in England born and bred
An eighteenth century brain
In a twenty first century-ry-ry
