

Don't You Know It

Adam Faith

I know that love is blind
Don't you know it
Don't you know it

And I know that love's unkind
Don't you know it
Don't you know it

And love can break your heart
Like a windowpane
If you don't want to know
Well, it's about time you did

I know that love's a power
Don't you know it
Don't you know it

Your love's like a poison flower
Don't you know it
Don't you know it

One kiss upon your deadly lips
And I feel the pain
If you don't want to know
Well, it's about time you did

One day your lesson will be learned
And you won't hurt me no more
Wait till you hear me laughin'
You'll know the score

You'll know that love is cruel
Well, don't you know it
Don't you know it

And you'll know you've been a fool
Well, don't you know it
Don't you know it

One look and you'll see me
Standing here all alone
Then if you wanna know
It'll be about time you did

Don't you know it
Don't you know it

Don't you
