

How About That

Adam Faith

You've got a face like an angel's face
H-h-how about that

You've got a look like an angel's look
H-h-how about that

Angel's face, angel's look
Heaven didn't overlook
My girl..
H-h-how about that

Love wasn't home 'til you came to me
H-h-how about that
I'll come to call on my bended knee
H-h-how about that

Bless you lucky stars above
Take a bow for thinking of
My girl..
H-h-how about that

They say that wonders can happen
And you're one for sure
But since you've happened
I've wondered if love ever happened before

So beat out the drum
Let the trumpets play
H-h-how about that

My angel has come
Let the people say
H-h-how about that

Let this world of marvels see
Only you could ever be
My girl
H-h-how about that
How about that
How about tha-ha-hat
