I Want Someone Badly

Gontier, Adam

Now I want someone badly
Got a girl here tonight
Wants someone new
Someone new
A little cry wants someone badly
I want to know if this is a bad lease on me
I want to know
I want to know
Am I sure that I heard you right

If you're leaving just do it tonight

Now I want someone badly

To burn in here with me

But listen baby

I want to know

'cause I cry all over madly
Don't do anything do it for/with me

Ooh I want to know
Am I sure that I have your love
I want to know
If you're leaving just make sure it's right

Now I want someone badly Could it be true That someone is you
