

# I Will Stay

Gontier, Adam

I have walked through the forest  
I have walked alone a long way  
But I just kept on going  
Picturing your smile so it wouldn't fade away  
It won't fade away...

I watched you sin, I felt your beauty  
I've seen your rack along the way  
But you just kept on going  
Holding on so tired so you wouldn't slip away  
You won't slip away...

Your era struck my heart  
And that is where it will stay  
My eyes are stinging as I feel you walking away  
What happen to you later?  
Does it sound the same way?  
If you're lost, if you're lost, I will stay

Oh, we've lived through of life  
From all over tears  
Oh, they keep coming down  
Build up from all these years

Your era struck my heart  
That's where it will stay  
My eyes are stinging as I see you walking away...

Your era struck my heart  
And that is where it will stay  
My eyes are stinging as I feel you walking away

What happen to you after?  
Does it sound the same way?  
If you're lost, if you're lost  
If you're lost, if you're lost  
I will stay, I will stay
