

Down on the Street

Adam Green

Down on the street there's a police attack
And you've got to find out
So you suck on a cranberry candy

They look so sad when you call 911
But you've got to report them for
Criminal classification

What can I do? White light turns into blue
You know it's easy, so very easy
I'm in trouble like a dirty stinking jew

Pepe Le Pew singing 'What can I do?'
Still I go on vacations
And act like the queen of injustice

And the girl on the subway who sleeps on her back
And she's got to relax
When I speak of the pleasures of silence

I want to play, who threw my toys away
And gave me coffee, who wants some coffee?
I'm in business on the wrong side of your bay

My heart be still, white light deploy at will
My little brother, I want another
Come together now for one enchanting thrill
