

## Down on the Street

Adam Green

Down on the street there's a police attack  
And you've got to find out  
So you suck on a cranberry candy

They look so sad when you call 911  
But you've got to report them for  
Criminal classification

What can I do? White light turns into blue  
You know it's easy, so very easy  
I'm in trouble like a dirty stinking jew

Pepe Le Pew singing 'What can I do?'  
Still I go on vacations  
And act like the queen of injustice

And the girl on the subway who sleeps on her back  
And she's got to relax  
When I speak of the pleasures of silence

I want to play, who threw my toys away  
And gave me coffee, who wants some coffee?  
I'm in business on the wrong side of your bay

My heart be still, white light deploy at will  
My little brother, I want another  
Come together now for one enchanting thrill
