

I just don't care about the evening news
I never listen to the crackhouse blues
They say the city is the place to be
I wanna dance with Emily
Everybody come around the window shop
I guess they never seen the moves I got
I wanna be with what the people see
I wanna dance with Emily

Emily, sweet baby, won't you be my wife
Cutting me wide open with a kitchen knife
Everybody said that she is underage
Honky tried to shoot me with a 7 gage

Now I got the cookies that your momma sent
I got permission from the government
Someone should mention to the minister
Now I gotta dance with Jennifer

Jenny's got a mousehole full of pigeon scum
On top a mountain made of bubble gum
Don't understand what all the grief is for
Now I gotta dance with Eleanor

Eleanor, I wonder if we grew too slow
Straight down the hatch beneath the streetlight's glow
Baby when I get you on that persian rug
That's the kind of movies I've been dreaming of

I'll tell you something that you'd think I know
I got two tickets to the sold out show
Some of the fellas like to think I'm Greek
I wanna love you maybe three days a week

I just don't care about the evening news
I never listen to the crackhouse blues
I wanna be with what the people see
I wanna dance with Emily
I wanna dance with Emily
