

You Blacken My Stay

Adam Green

Baby dont deter me if you like my song
You dream about it and maybe too long
But time has come to tell you there's a sure fire way
To blacken my mood and worsen my stay

You blacken my stay
Oh, you blacken my stay
you black my stay
Until the stars come tumbling down

I guess it aint becoming where the throws are bight
With grappling men in bachelor's life
But when we was performing at the bedroom show
You conquered my thoughts
I thought you should know

You blacken my stay
Oh, you blacken my stay
you black my stay
Until the stars come tumbling down

But for the finest hour in my life
Won't you spare me and just treat me nice
It's just no real each time you make me pay
And make me pay

Baby don't deter me if you like my song
You dream about it and maybe too long
Time has come to tell you there's a sure fire way
To blacken my mood and worsen my stay

You blacken my stay
