baby lets take a drive top down underneath the Carolina sky we can watch the fireflies try to outshine the stars I wanna lay a blanket down find a way back to where our love was found baby lets go right now

Chorus:

back to our hearts beating wild in the back of my beat up truck back to those butterflies first time we felt in love back to your smiling eyes come on baby take my hand lets find a way back to our crazy days

don't worry about what to wear those faded cut off jeans are my favorite pair don't go messin with your hair let it all blow around move over in the middle by me just like you did when your daddy couldn't see why his little girl loved a boy like me

Chorus:

back to our hearts beating wild in the back of my beat up truck back to those butterflies first time we felt in love back to your smiling eyes come on baby take my hand lets find a way back to our crazy days

Bridge:

you remember cuttin' class
heading to the creek
doin 95 down a two lane streets
staying up all night talkin about forever you and me
I can see that look in your eyes
and if I know you, they don't lie
they're telling me you're think about going back
about getting back

Chorus:

back to our hearts beating wild in the back of my beat up truck back to those butterflies first time we felt in love back to your smiling eyes come on baby take my hand lets find a way back to our crazy days
