

Buzzes Like Neon

Adam Hood

There's a light in the city
Standing 5 miles high
I'm crossing that river
There's a girl on my mind
It's high atop the buildings
Flashing Red
And It's just a one more reason
She's stuck in my head
And it buzzes like neon
And it makes me feel fine
And the way she leads me on
It's a real good sign
These dirty brick cities
They all look the same
Not one damn person
Ever knows my name
These clouds ain't liftin'
There's something within
Says a change in the weather
Is coming round again
And it buzzes like neon
And it makes me feel fine
And the way she leads me on
It's a real good sign
From Lawrence to Springfield
There ain't nothing out there
Just hills and prairies
And this cold dry air
I'm starting to hear voices
From home sweet home
Too far out to turn around
Tired of being alone
And it buzzes like neon
And it makes me feel fine
And the way she leads me on
It's a real good sign
Yeah? buzzes like neon
Makes me feel fine
And the way she leads me on
It's a real good sign
It buzzes like neon
It buzzes like neon
