

# Don't That Sound Like Love

Adam Hood

She's always waking -up early  
When I'm trying to sleep late  
Get the talking on the cellphone  
Man this shit ain't the same

It's my first year at the top  
And they named her in the night  
So she can spend her whole paycheck  
On shopping online

But every time I think about it  
The more it makes sense  
Don't that sound like love to you?  
Ain't what people in love are supposed to do?  
I tried to get mad but I know it's true  
Don't that sound like love to you?

Ready for the weekend  
Bring my buddies to the house  
We cook the pig out in the back yard  
And get the guitars out  
We get around the whiskey  
It doesn't take along  
She comes flying through the back door  
Running everybody home

And if I had a buddy I would be ashamed  
But daddy owns a trailer  
So I don't complain

Don't that sound like love to you?  
Ain't what people in love are supposed to do?  
I've been trying to get mad  
But I swear it's true  
Don't that sound like love to you?

I pack up my shot gun  
I put it in the wheel  
Moving in momma's basement  
Where the party never ends

There goes the mother to my children  
And she's a really good friend  
Well the Heaven is payment  
Since today moved in

And I'd rather live well  
And just as well  
Cause if I had to live it out  
I'd be in jail

Don't that sound like love to you?  
Ain't what people in love are supposed to do?  
I tried to get mad but I know it's true  
Don't that sound like love to you?  
Ain't what people in love are supposed to do?  
I tried to get mad but I know it's true

Don't that sound like love to you?
